Your child can create a chart putting a tick next to each food they like and a cross next to the foods they dislike over the course of the week.

Pleasing Puppets

Where in the World?

- Discuss with your child where your family comes from in the world. If you have them available, show your child photographs of where you, or their grandparents, grew up. This might be similar to where they live now or completely different. Encourage your child to think about the differences between the places.

Engineering Around the World – Bridges

- A bridge helps people move over obstacles like a river, a valley or a busy road. The world's longest bridge is in China and is 164.8km long. It would take more than two days to walk the length of this bridge. Do you have any bridges near your home? What do they look like?
- Try building a bridge out of paper, Lego or any other building materials you might have at home. Your bridge needs to be big enough for a toy car or small toy to travel over.
